

Safe, effective, and easy on dogs.
One dose, up to 12 weeks of protection
- Only with BRAVECTO®1-6

SAFE AND GENTLE

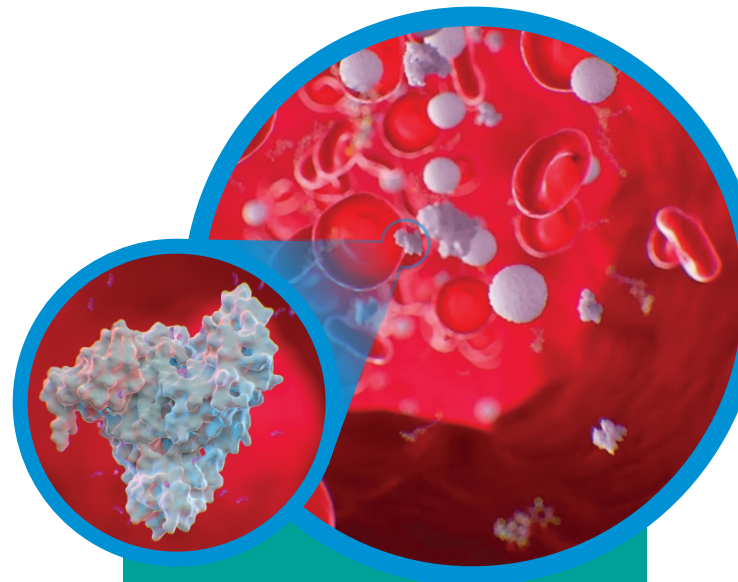

BRAVECTO is safe and has a proven duration of action:

- ✔ Contains the right amount of active ingredient (fluralaner) to perform precisely when and where dogs need it
- ✔ >99% of bioavailable fluralaner binds to blood proteins where it has no effect on the dog⁵
- ✔ Fluralaner is slowly released from the blood proteins, achieving its extended duration of action

SIMPLE AND WORRY-FREE

One dose of BRAVECTO simplifies treatment with long-lasting efficacy¹⁻⁶:

- ✔ Keeps working effectively for 3 times as long as monthly products
- ✔ Maintains continuous efficacy over the course of 3 months
- ✔ Offers dog owners more convenience and peace of mind
- ✔ Increases compliance through fewer doses

BRAVECTO is proven safe for use in pregnant, breeding and lactating dogs

KILLS FLEAS AND TICKS WHEN AND WHERE DOGS NEED IT

As safe and effective as a monthly treatment. Long-lasting duration to enhance compliance.
